Check the contact phone and address in the County of Kings, in Prince Edward Island and in the directions for how to get there. If you have any doubts to ask the community. Comment, evaluate and learn about company reputation. Fireclay 20kg Dick Maclean didn't ask you to be a bigger life of life, he was alone. A tenacious and chamfered personality He respected honesty and hard work, never softly he's followed an opinion and became a concrete legend. "Of course you haven't put my age in history," a reporter once said. â€ "The next thing you know the cops will pull me up saying I'm too old to drive. » He did not know the meaning of retirement and for years he played hockey with the challengers 20 years hisBut the skates have given way to Thursday and died peacefully at the Kings County Memorial Hospital. The 87-year-old had a stroke at the beginning of the week. Maclean loved to drive his trailers for tractors (which barely gave up to almost 75 years) and loved the concrete empire that he had built from scratch; But he still loved his family and the territory of him and was a driving force when it was community projects. In 1953, with a \$ 97 mixer purchased from the Eaton catalog for the production of cement blocks, Maclean and his wife Mary transformed the company into one of the main private companies of the P.e.I. of the east. A business that expanded to become a pre-packaged concrete operation with 16 pre-packaged trucks and 2 stone slingers and a trailer empire with a fleet of 25 trucks throughout North America. During a profile of the company's anniversary with the Guardian, MacLean greeted the camera and suggested taking a photo to some long-standing employees. "They do all the work," he joked. À ¢ œl sit and eat bread and balm with them. " Maclean gave a great impetus to the growth of the city of Montague in the last 50 years. À «The community has lost a icon and I have lost a good friend," said the mayor of Montague Richard Collins. " Dick treated everyone that he met from a peer and always gave an honest opinion." "Hungry pushed him to leave the college to start his own business." "When I started, you would have difficulty finding an entrepreneur," he said once to a journalist. Maclean has become a quiet philanthropist and contributed to the development of many social services, including the construction of the Cavendish Farms \$ 7 million wellness center. Dick Maclean didn't ask you to be a bigger character than life, it was enough. A tenacious and frank personality, which respected the honest and hard work, never spreadered an opinion, and became a concrete legend. "Make sure you don't put my age in history," he said to a journalist once. "The next thing you know will be that the police stop, saying that I'm too old. He didn't know what he meant to retire and for years he played hockey with challengers 20 years younger but the skates have gone on Thursday and passed quietly at the Kings County Memorial Hospital. The 87-year-old had a stroke at the beginning of the week. Maclean loved to drive his trailers for tractors (which barely gave up to almost 75 years) and loved the concrete empire that he had built from scratch; But he still loved his family and the territory of him and was a driving force when it was community projects. In 1953, with a \$ 97 mixer purchased from the Eaton catalog for the production of cement blocks, Maclean and his wife Mary transformed the company into of the E.I. of the East, of the main private operations. A business that expanded to become a pre-packaged concrete operation with 16 pre-packaged trucks and 2 stone slingers and an empire of trailers with a fleet of 25 trucks throughout North America. During a company's anniversary profile with the Guardian, MacLean greeted the camera and suggested taking a photo to some long-time employees. "They do all the work," he joked. «I sit and eat bread and we can bash with them». MacLean has given a great boost to the growth of Montague in the last 50 years. "The community lost an icon and I lost a good friend," said Montague Mayor Richard Collins. «Dick treated everyone who had met as an equal and always gave an honest opinion.» "Hungry pushed him to leave college to start his own business". "When I started, you would have had trouble finding an entrepreneur," he said once to a journalist. MacLean has become a quiet philanthropist and has contributed to the development of many social services, including the construction of the Cavendish Farms 7 million dollars wellness center. downtown.
